

Carers Advocacy Drop-Ins

The Carers Advocacy Drop-in is a service for carers who live in Haringey and care for adults who have disabilities or long term health needs. No appointment is needed.

Our advocates may be able to deal with the issue there and then by providing the info you need or sign-posting you to other services.

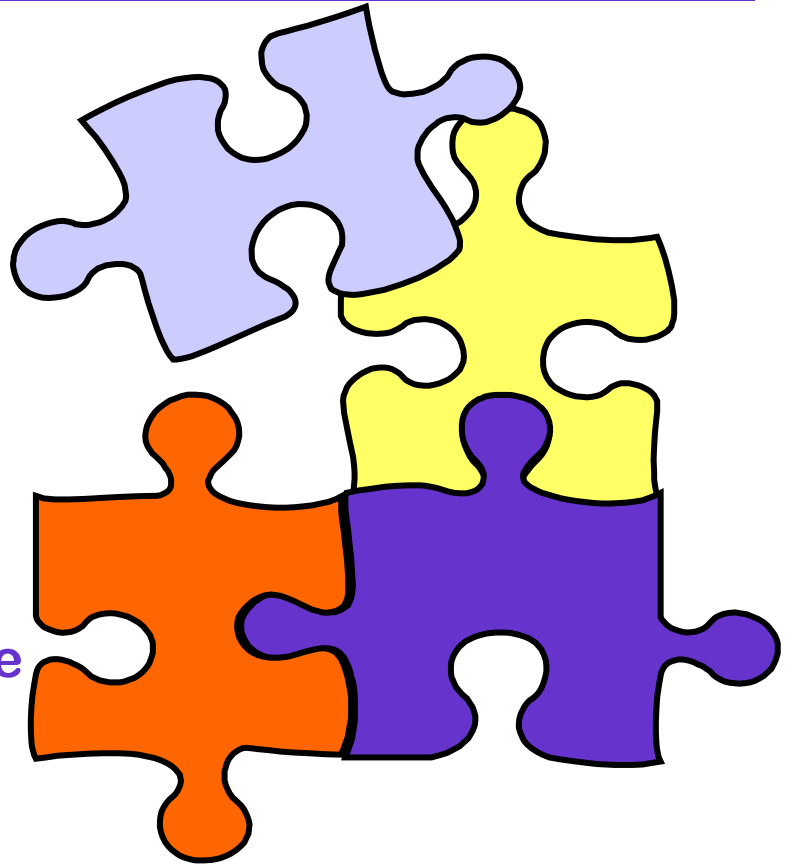

You may be given follow-up appointments where the issue may be addressed further.

For more information please contact Peter on:
